6.9 Southland Flood Control & Drainage Management Bylaw 2020 ..... 32

6.10 Annual Coastal Occupation Charges (Regional Coastal Plan p 9.1.9)..... 32

## Environment Southland Fees and Charges Schedule

Environment Southland may charge people when discharging a range of its functions and responsibilities under legislation, including under the Resource Management Act 1991 (RMA), the Local Government Act 2002 (LGA), the Building Act 2004 and the Biosecurity Act 1993. This schedule outlines Environment Southland's current policy and charges payable under the specific legislative functions.

### 1. Principles

The following principles are applied to the Council's decision to set charges in this Fees and Charges Schedule.

#### 1. Charges must be lawful

The Council can only levy charges which are allowed by legislation. Charges set under this Schedule are set under a range of different legislation, including the Resource Management Act 1991, Local Government Act 2002, and Local Government Official Information and Meetings Act 1987. The statutory basis for charges is set out within this schedule.

#### 2. Charges must be reasonable

The purpose of a charge is to recover the reasonable costs incurred by the Council in respect of the activity to which the charge relates. Actual and reasonable costs will be recovered from resource users and resource consent holders where the use of a resource directly incurs costs to the Council. For more information about how the Council funds its activities from its various funding sources, please refer to its revenue and financing policy.

Some charges imposed on consent holders are based on the full costs of the Council's administration and monitoring of their consents, plus a share of the costs of its state of the environment monitoring activities that relate to the resource used by those consent holders.

#### 3. Charges must be fair

Charges must be fair and relate to resource users' activities. The Council can only charge resource users to the extent that their actions have contributed to the need for the Council's work.

Wherever possible, the Council will look for opportunities to streamline and improve processes to ensure that consent processing and compliance monitoring functions continue to be cost effective and efficient.

#### 4. Charges must be transparent

Charges should be calculated in a way that is clear, logical and justifiable. The work of the Council for which costs are to be recovered should be identifiable. Charges should be clear and easy to understand, and their administration and collection should be simple and cost effective.

Consent applicants and resource users are entitled to certainty about the cost of their dealings with the Council. The manner in which charges are set should enable customers to evaluate the extent of their liability. Some charges associated with resource consent application processing contain both initial charges, and additional charges. Where additional charges apply, applicants are able to request an estimate of the consent processing charge. These matters are detailed further in the Consents sections.

## 2. General Provisions Applicable to Fees and Charges

The following section of this Schedule outlines the formula and other matters that apply to the calculation of all charges within the following schedules (except for fixed charges).

To calculate the fee and charges payable you will need to consult the relevant section of this Schedule, along with these general provisions.

The Schedule contains fees and charges relating to:

- Resource Management Act 1991 charges under Section 36 of the RMA:
  - changes to policy statements and regional plans;
  - resource consent application charges (including transfers of resource consents and reviews of resource consents);
  - annual consent holder charges and compliance charges
- Local Government Act 2002 charges for incident cost recovery;
- Biosecurity Act 1993 charges;
- Local Government Act 2002 charges for Spatial Information Data;
- Local Government Act 2002 charges for River and Catchment Services;
- Local Government Official Information and Meetings Act 1987 charges;
- Building Act 2004 charges;
- Maritime Transport Act 1994 and Southland Regional Council Navigation Bylaw charges;
- Southland Flood Control & Drainage Management Bylaw 2020 charges; and
- Coastal Occupation Charges from Policy 9.1.9 of the Southland Regional Coastal Plan.

Unless otherwise stated in this Fees and Charges Schedule, all of the following general provisions applicable to fees and charges apply to any fee and charge imposed by the Council.

### 2.1 Charging Formula

Other than in relation to fixed charges (as specified in this Schedule) Environment Southland will apply the following formula to calculate the charge payable in relation to any matter that it is entitled to charge for in accordance with this Schedule:

$$\text{(Staff hours x hourly charge-out rate) + disbursements = charge payable}$$

### 2.2 Staff services and hourly charge out rates

Staff time is charged on the basis of actual time spent at a rate consistent with the staff members experience level and role.

**Table 1 – Staff services and hourly rates**

Staff type and Service	Charge per hour (GST exclusive) 2023/24	Charge per hour (GST inclusive) 2023/24
Customer services officer / administration officer	\$112	\$129
Technical officer including consent / resource management and field officers	\$161	\$185
Senior consent /resource management/ technical specialist / manager / team leader / harbour master	\$193	\$221
General Managers	\$321	\$369

## **2.3 Disbursements**

Disbursements include advertising costs, legal charges, laboratory analysis, travel, consultant(s), consultation with mana whenua, photocopying and hearing logistic costs (other than staff time).

### **2.3.1 Consultancy costs**

Environment Southland uses consultants in a range of situations (both in relation to processing resource consents, but also in other situations, including in relation to charges under the Local Government Act 2002). Consultants are used where the person subject of the charges has required or requested the use of the consultant, the matter involves urgency, the matter involves complex and/or technical matters, or a peer review is necessary or in the case of a resource consent application, where a report is commissioned under Section 92 of the RMA. In all of these situations the full cost of the consultant will be charged to the person as a disbursement.

Consultant costs will include the time and cost spent by Environment Southland staff engaging and managing the consultant.

### **2.3.2 Travel**

Environment Southland charges for the travel costs of its staff when making site visits.

The travel cost will consist of the hourly charge out rate of the staff member, see Table 1, and the vehicle mileage cost at the current km rate recommended by the Inland Revenue Department (IRD).

Vessel charges will be incurred for any coastal monitoring or where access to the sea, lake or a river is otherwise requested. Staff time and vessel costs will apply as per Table 19.

### **2.3.3 Photocopying charges**

Black and White A4 or A3:

- First 20 pages – free of charge
- Excess of 20 pages – 0.20 cents per page

Colour A4 or A3:

- 0.40 cents per page

## **2.4 Goods and Services Tax (GST)**

Charges outlined in this Schedule exclude GST unless otherwise stated.

## **2.5 Review**

The Fees and Charges set under this Schedule are reviewed annually with the policy remaining in effect until such time as it has been reviewed, all consultation requirements have been completed and have been amended or revoked by Council resolution.

Fees and charges that require formal adoption under Section 150 of the Local Government Act 2002 (LGA) may be consulted on in conjunction with the Long-term or Annual Plan.

The fees set out in this schedule will come into effect on 1 July 2023 and will continue until superseded. A copy of this Fees and Charges Schedule will also be published on Council's website.

The fees and charges set out in this document are consistent with the Council's revenue and financing policy, which sets out the funding and cost recovery targets for each Council activity.

## **2.6 Minimum amount for invoicing and refunds**

Refunds of charges or invoicing of charges for consent applications or monitoring shall only occur if the amount is greater than \$45.

## **2.7 Debt Collection Costs**

All collection costs incurred by Environment Southland in the recovery of a debt will be added to the amount due.

Overdue invoices will incur an interest charge at 12% per annum.

## **3. Resource Management Act 1991 Charges**

Section 36 of the RMA enables Environment Southland to charge for a range of matters including in relation to plan change requests, resource consent applications and compliance monitoring.

The Council may charge for costs under the RMA for a range of activities. These include the following:

- processing resource consent applications, including additional costs which may be incurred when applicants or submitters request a hearing by a Commissioner under Section 100A of the Act;
- review of consent conditions (in certain situations);
- processing applications for certificates of compliance and existing use certificates;
- the administration, monitoring and supervision of resource consents;
- monitoring and making data available in accordance with Section 35 of the RMA;
- applications for the preparation of, or changes to, regional plans or policy statements; and
- for providing information in respect of plans and resource consents and the supply of documents.

The RMA enables Environment Southland to fix charges (Section 36) and where the fixed charge is not sufficient to recover the actual and reasonable costs incurred in carrying out those functions, allows for additional charges to be made (Section 36(5)). The charges set in this section have been set with reference to the criteria in Section 36AAA of the RMA.

This section of the Fees and Charges Schedule utilises the following charges:

- fixed charge fees;
- initial fixed charge fees (deposits); and
- additional charges.

Fixed charge fees cover the total cost of the matter and are deemed to be "actual" charges. Fixed fee charges are not supplemented by additional charges.

Initial fixed charge fees are a deposit based on the estimated costs of a matter. Initial fixed fee charges can be supplemented by additional charges.

Additional charges will be charged where the total cost of a matter exceeds an initial fixed charge fee or where a specific amount has not been set. Additional charges will be charged in accordance with the charging formula set out at page 6. Staff hourly rates will be charged at the appropriate rate as set out in

Table 1. The Council must, on request, provide an estimate of any additional charge likely to be imposed as an additional charge.

**3.1 Objections**

Certain charges under the RMA may be the subject to objection or appeal under the provisions of the RMA.

Fixed charges are not open to objection or appeal.

However, under Section 36(7) of the RMA, Sections 357B to 358 (which deal with rights of objection and appeal against certain decisions) apply in respect of the requirement to pay an additional charge under Section 36(5).

Consideration of objections may be liable for costs, particularly where external decision-making input is required. Costs of such an objection are payable by the applicant under Section 357A(1)(f) and (g). Refer to Table 3 on page 11.

**3.2 Contaminated Land**

Specifically in relation to the Council’s functions to identify and monitor contaminated land under Section 30(1)(ca) of the RMA, the Council will recover costs to the extent available as follows:

- as part of resource consent processing when a resource consent application is made in relation to contaminated land (for example, under Rule 46 and 46A of the proposed Southland Water and Land Plan) see Table 8 - Discharge to Land;
- as part of compliance monitoring Tables 7-15;
- as part of conducting inspections under Section 332 of the RMA Table 5 – Other Compliance Costs. This will include actual time spent by Council staff undertaking any inspection (including but not limited to preparation, travel, time on site and administration associated with the inspection).

**3.3 Changes to Policy Statements and Plans (Section 36(1)(A))**

When Environment Southland receives a request to prepare or change a regional plan, or to change the regional policy statement, it may decide as follows:

- decline the request. In this case, the request will go no further;
- accept the request, and charge the applicant the cost of processing the application;
- adopt the request. In this case, Council will meet the cost of processing the application, after the initial assessment (which is charged to the applicant).

**Table 2 – Change requested**

Change Requested	Initial fixed fee per application (GST exclusive) 2023/24	Initial fixed fee per application (GST inclusive) 2023/24
Assessment of a request before deciding to decline, accept or adopt it	\$40,000	\$46,000
Additional fixed fee charge if the request accepted for processing	\$40,000	\$46,000

Where the actual cost of the application processing and hearing is different to the deposits charged, the difference will be refunded to the applicant if the costs are lower, or an additional charge will be required if the costs are higher. Additional charges will be charged in accordance with the charging formula set out on page 6. Staff hourly rates will be charged at the appropriate rate as set out in Table 1. Council will inform applicants if the costs are expected to significantly exceed the deposit amount.

## **4. Resource Consent Applications**

### **4.1 Resource consent pre-application advice and information**

Consents division staff are available to meet potential consent applicants to provide pre-application advice. The first hour of assistance on any application or proposal is free of charge, with subsequent assistance being charged according to Table 1 and the charging formula on page 6 of this Schedule.

### **4.2 Resource consent application processing (Section 36(1)(b))**

For carrying out its functions in relation to the receiving, processing and deciding on resource consent applications (including assessment of applications for certificates of compliance), and for considering and deciding on changes to or reviews of consent conditions and transfer of consents, the Council will:

- fix specific amounts to be charged for specified resource consent applications and set initial fixed charges for other specified activities (see Table 3);
- require applicants and consent holders to pay the full fixed charge or initial fixed charge prior to work commencing on the application or review;
- where a specific amount has not been fixed (or only an initial fixed charge exists), require applicants or consent holders to pay the actual and reasonable costs of processing the application as determined in accordance with the charging formula set out on page 6;
- refund the residual if the total cost does not exceed the initial fixed charge amount, noting section 2.6, any residual under \$45 will not be refunded.

The charges for resource consent applications are set out in Table 3 below. Some of the resource consent applications are subject to fixed fees and the remainder are subject to initial fixed charges (deposits). Where the total cost of processing an application exceeds an initial fixed charge, additional charges will be charged in accordance with the charging formula set out on page 6. Staff hourly rates will be charged at the appropriate rate as set out in Table 1.

Where a resource consent application includes multiple different activities, then the charge for each different activity in Table 3 must be paid by the applicant. Depending on the application this may mean that several different initial fixed fees have to be paid as a deposit.

Deemed permitted activities are activities which meet the criteria in Section 87BB of the RMA.

The Council may charge a person proposing to undertake such an activity for the issuing of a notice under Section 87BB that the activity is a deemed permitted activity, pursuant to Section 36(1)(ae) of the RMA.

**Table 3 – Application fee type**

Application fee type	Activity	2023/24 Fee \$ (GST exclusive)	2023/24 Fee \$ (GST inclusive)
Fixed charge	Whitebait stand - occupational of coastal marine area by existing structure	\$257	\$295
	Bore (individual, with pump tests < 20,000 L / day) per bore	\$519	\$597
	Transfer of consent holder <sup>1</sup> (per consent)	\$107	\$123
	Deemed Permitted Activity	\$500	\$575
Initial fixed charge - Non notified	Bore (multiple and/or water takes for pump tests > 20,000 L / day)	\$803	\$923
	Gravel Extraction	\$2,140	\$2,461
	Groundwater takes <200 m <sup>3</sup> /day	\$1,605	\$1,846
	Agricultural effluent storage pond construction	\$1,605	\$1,846
	Effluent discharge to land	\$2,675	\$3,076
	Coastal - Commercial Surface Water Activity (CWSA)	\$3,210	\$3,692
	Coastal structure / Occupation	\$2,675	\$3,076
All other activities including partial transfers	\$1,605	\$1,846	
Initial fixed charge - notified (public & limited)	Notified application deposit on lodgement (up to hearing stage) where notification requested by applicant (per application)	\$10,700	\$12,305
Further initial fixed charge	Application processed that requires a public hearing - deposit payable to set matter down for hearing (if deposit not paid on lodgement) (per application)	\$10,700	\$12,305
Initial fixed charge - notified (public & limited)	Application for further charges for each additional day of scheduled hearing or part thereof (per day)	\$5,350	\$6,153
Initial fixed charge	Review of consent conditions where the review is carried out at the request of the consent holder, or under Section 128(1)(a), 128(1)(c), or 128(2) of the RMA	\$2,140	\$2,461
Initial fixed charge	Certificate of compliance or certificate of existing use	\$1,338	\$1,538
Initial fixed charge	Objection under s357A(1)(f) and (g)	\$2,675	\$3,076

<sup>1</sup> Transfer of a consent to a new site is treated as a new resource consent application for the purposes of charging.

### 4.3 Pre-hearing meetings and hearings

The costs of pre-hearing meetings and hearings will be charged to the applicant. The costs of hearings includes:

- the costs of Councillors who are members of hearing panels, at the rates determined by the Remuneration Authority;
- staff costs;
- (non-Councillor) hearing panel members' fees (including independent hearing commissioners, where permitted).

Applicants that request independent hearing commissioners under Section 100A of the RMA will be charged for the cost of the application being heard and decided by the independent hearing commissioner.

Charges relating to joint hearings will be apportioned by the authorities involved, according to which authority has the primary role of organising the hearing.

Where a hearing panel has directed that expert evidence is pre-circulated then all persons who are producing such evidence shall be responsible for providing the prescribed number of copies of such evidence to the Council. In the event that the Council needs to prepare copies of such evidence the person producing the evidence will be charged for the copying.

#### **4.4 Discount policy for applications processed in excess of statutory timeframes**

The Resource Management (Discount on Administrative Charges) Regulations 2010 apply to applications for resource consents and application to change or cancel conditions of a resource consent (under Section 127 of the RMA) processed by Environment Southland. Applicants are entitled to a discount if the application takes longer to process than the statutory timeframes allowed under the RMA.

The Discount Regulations do not apply to the following:

- applications to extend consent lapsing periods (RMA s125);
- consent reviews (RMA s128);
- certificates of compliance (RMA s139);
- when an applicant withdraws a resource consent application.

The Discount Regulations will be applied to any applicable charges made under this Schedule.

## **5. Resource Consent and Compliance Monitoring**

Tables 7 to 15 outline all consent and compliance administration and monitoring charges set by the Council in relation to resource consent administration, monitoring and supervision and the other associated RMA monitoring the Council undertakes. The following sections 5.1 to 5.7 describe each of these charges in further detail.

### **5.1 Annual resource consent holder charges**

Annual charges specified in this section apply to all current resource consents whether or not the consents have been used or exercised. The annual fee for various resource consents is prescribed in Tables 7-15.

#### **5.1.1 Administration Charge (Section 36(1)(c))**

Environment Southland invoices annual administration charges to recover the costs associated with consent processing that cannot be directly attributed to individual users. This includes costs involved in the maintenance of the consents database, correspondence with consent holders, provision of expiry notices, responding to requests for information on consents generally, and meeting with consent holders to discuss matters relating to their consents.

A scale of charges is applied to resource consents. These charges vary due to the scale and complexity and administrative time involved for the consent groups, as described in Table 16.

#### **5.1.2 Science Research and Management Charge (Section 36(1)(c))**

Section 36(1)(c) charges are payable by holders of resource consents for the carrying out by a local authority of its functions in relation to the administration, monitoring and supervision of resource consents and for the carrying out of its resource management functions under Section 35.

Science research and management activities are undertaken to gather information about resources to ensure they are managed on a sustainable basis. The information is used to determine the nature and state of a resource, to enable Council to grant resource consents with confidence and to check whether the management tools for resources in regional plans are working properly. A large amount of information is made publicly available.

Both the consent holder and the regional community benefit from the science research and management undertaken. The consent holder benefits through the protection of resources through management, early warning of changes in resources and information and data to aid business planning, exercising of their consent and re-consenting process.

The research charge contributes towards the costs incurred by Council in researching and identifying the cumulative impact on our environment of all such activities across the region. Information gained from this research can also be used by applicants during the resource consent application process.

A scale of the annual Science Research and Management charges are applied to resource consents. These charges vary primarily due to the following factors:

- the nature and scale of activity, e.g. the size of a water take or type of discharge; and
- the level of stress a particular catchment, coastal area or groundwater zone is under.

The charges and the application to various consent types are described in Tables 7-15.

## **5.2 Resource consent compliance monitoring initial fixed charges (Section 36(3))**

The initial fixed charges for compliance monitoring inspections and re-inspections are based on staff time for technical staff per Table 1 of this schedule. Fixed charges generally apply to activities where conditions are very similar or the same. If an activity identified for fixed charges is non-standard, then variable charges may apply to that non-standard activity. Fixed charges may be invoiced annually or per activity, as described in Tables 7-15.

## **5.3 Resource consent compliance monitoring (variable) charges (Section 36(1)(c))**

The compliance monitoring programme is tailored to individual circumstances. All costs associated with monitoring the consent are passed on to the consent holder. As set out in the RMA, Environment Southland may charge for costs associated with its ongoing administration, monitoring and supervision of resource consents (RMA Section 36(1)(c)).

Where the initial charges set in this section are inadequate to cover actual and reasonable costs, Council may impose an additional charge.

### **What Council does to monitor resource consents**

The purpose of compliance monitoring is to confirm consent holders are meeting the conditions of their resource consents. The conditions on resource consents are designed to control any adverse effects on the environment arising from the exercise of the resource consent.

Council needs to know resource consents are being complied with. In this way, Council can ensure the resource the consent holder is using, remains fit for them and other consent holders to use.

A compliance monitoring programme is initially determined at the time the resource consent is granted. How much compliance monitoring is required varies according to the nature of the activity, its size and frequency and potential environmental impact.

Resource consents with an ongoing effect on the environment have a monitoring programme, though it is important to note that the monitoring programme may not always require site inspections. Resource consents with a finite effect may only need one site visit.

The compliance programme may be reduced if the consent holder establishes a good compliance record, or where two or more resource consents are held for the same location. It may also be increased if the consent holder establishes a poor compliance record.

As part of the compliance monitoring programme for a consent, Council may:

- carry out an initial visit to assess if the resource consent is being implemented in accordance with the consent conditions;
- carry out site visits and inspections (as required);
- review the results of any monitoring carried out by the consent holder or their consultants;
- advise the consent holder of the outcome of the compliance visit;
- carry out tests and analyse samples at a laboratory (if relevant).

The monitoring may be completed through desktop monitoring, physical or aerial review. If a consultant is used, these costs will be on-charged.

Council may also need to use outside expertise to assist with the monitoring of some consents.

The costs of these experts may be included as part of the consent monitoring charge. In most cases, Environment Southland staff will carry out compliance checks.

The monitoring charge includes all preparation prior to an inspection and reasonable administration time after the inspection to update Council databases and respond to the consent holder in writing.

#### **5.4 Resource consent compliance additional charges (Section 36)**

Where the initial fixed charge is inadequate to recover the Council's reasonable and actual costs for inspecting/monitoring of consents, additional inspection/monitoring charges and re-inspection of consents charges will be recovered on the basis of staff time, travel and disbursements.

These additional inspection/monitoring, including investigation and mitigation costs, may be required as a result of complaints regarding consented activities. The charge payable is calculated in accordance with the formula on page 6 of this Schedule and Tables 7-15.

The purpose of additional monitoring charges is to recover costs of additional work that is required to be undertaken by Council when consent holders do not act in accordance with consents.

Additional monitoring charges relate to those situations where consent conditions are not being met or adverse effects are resulting from the exercise of a consent.

When consent non-compliance is found, the person is, if possible, given the opportunity to remedy the situation and is informed that costs of additional supervision will be recovered. Such activity may also be subject to infringement notices, enforcement orders or prosecutions.

Charges for additional monitoring will be calculated on an actual and reasonable basis.

The costs that make up the charge will include:

- **labour costs** - officers actual recorded time spent, including travel time, and administration time in following up the non-compliance matter or unauthorised activity (charged at the appropriate hourly rate listed in Table 1; plus
- **any sampling and testing costs incurred** - plus any equipment costs (excluding vehicle running costs) associated with the monitoring of the non-compliance; plus
- **any external costs incurred** - e.g. external consultants, hire of use of clean-up equipment

**Table 4 – Consent Compliance – additional charges**

Activity	Description	2023/24 GST (exclusive)
<b>Consent compliance - additional charges</b>	Non-compliance of resource consent	Actual cost (in addition to annual charge) - Staff costs (per Table 1) - Sampling and testing costs - Equipment costs - External consultants (on-charged) - Additional water monitoring costs

### 5.5 Incident and recovery charges (LGA (Section 150))

Environment Southland carry out inspections<sup>1</sup> to form a judgment on whether or not:

- (a) there has been compliance with the RMA, any regulations (including national environmental standards), a rule of a plan, a resource consent, or Sections 10, 10A, or 20A of the RMA; or
- (b) an enforcement order, interim enforcement order, abatement notice, or water shortage direction is being complied with; or
- (c) any person is contravening a rule in a proposed plan in a manner prohibited by any of Sections 9, 12(3), 14(1), 15(2), and 15(2A).

The Council may fix a fee or charge to recover the costs it incurs when carrying out inspections<sup>1</sup> pursuant to Section 332 of the RMA to determine compliance with above matters.

Charges for inspections under Section 332 of the RMA will be for the reasonable costs incurred in carrying out the inspection, pursuant to Section 150 of the LGA, including:

- initial administration;
- attendance at the site for the purposes of carrying out the inspection (including staff time and vehicle mileage);
- analysis of any samples taken during the inspection; and
- administration associated with the inspection itself.

Actual costs are charged based on staff time (including associated administration), per Table 1, mileage and disbursements related to the inspection.

<sup>1</sup> The term inspection is defined as the action taken by Council under section 332 of the RMA to form a judgment on whether there has been:

- (a) compliance with the RMA, its regulations, a rule of a plan or a resource consent;
- (b) compliance with an abatement notice, enforcement order or water shortage direction; or
- (c) contravention of a rule in a proposed plan.

## **5.6 National Environmental Standards for Plantation Forestry**

Under Regulation 106 of the Resource Management (National Environmental Standards for Plantation Forestry) Regulations 2017, the Council may charge for monitoring of permitted activities specified by Regulations 24 (earthworks), 37 (river crossings), 51 (forestry quarrying) and 63(2) (harvesting).

This monitoring will be charged in accordance with principles and general policies of this charging document.

Charges will cover the travel and inspection time of the officer(s) undertaking the inspection (as per Table 1), as well as any sampling costs where required.

The Council may also charge for the monitoring of deemed permitted activities (pursuant to Section 87BB of the RMA) which would, if not for the marginal or temporary non-compliance, be a permitted activity under Regulations 24, 37, 51, or 63(2) of the Standards.

## **5.7 National Environmental Standards for Freshwater**

Under Regulation 75 of the Resource Management (National Environmental Standards for Freshwater) Regulations 2020, the Council may charge for monitoring of permitted activities covered by the Standards, where the Council is responsible for monitoring those activities.

The Council may also charge for the monitoring of deemed permitted activities (pursuant to Section 87BB of the RMA) which would, if not for the marginal or temporary non-compliance, be a permitted activity under the Standards.

These will be charged in accordance with the principles and general policies of this charging document. Charges will cover the travel and inspection time of the officer(s) undertaking the inspection (as per Table 1) as well as any sampling costs where required.

The Council will not charge to receive or review notifications of intended permitted activity work for wetland restoration, wetland maintenance, or biosecurity, pursuant to the Regulations.

**Table 5 – Other Compliance Costs**

Activity	Description	2023/24 GST (exclusive)	2023/24 GST (inclusive)
<b>Permitted Activities</b>	<p>Monitoring in accordance with relevant National Environmental Standards (for Plantation Forestry and Freshwater) where charging for monitoring of permitted activities is authorised.</p> <p>Charges are for actual and reasonable costs including:</p> <ul style="list-style-type: none"> <li>- site inspections (including staff time and vehicle mileage)</li> <li>- associated reporting</li> <li>- analysis of any samples taken during the site visit</li> <li>- associated administration</li> <li>- non compliance follow ups; and</li> <li>- associated testing/external consultants</li> </ul>	Actual cost (including travel, inspection time and sampling costs)	Actual cost (including travel, inspection time and sampling costs)
<b>Other Inspections</b>	Inspections under S332 of RMA	Actual cost (including travel, inspection time and sampling costs)	Actual cost (including travel, inspection time and sampling costs)
<b>Groundwater Monitoring</b>	Groundwater sampling with sample taken (per sampling)	\$278 plus lab fees	\$320 plus lab fees
	Groundwater sampling where no sample is able to be taken (per sampling)	\$225	\$258
	Consents requiring Alarmist (river level) information	\$342 establishment cost plus \$128 annually	\$394 establishment cost plus \$148 annually
<b>Reports, Data, Notifications</b>	Compliance monitoring reports required as part of consent conditions (per report)	\$96	\$111
	Non-provision or inadequate provision of resource consent condition data/information	\$1,402	\$1,612

**Table 6 – Gravel**

Activity	Description	2023/24 GST (exclusive)	2023/24 GST (inclusive)
<b>Gravel</b>	Gravel consents - a fee will be charged on a per m <sup>3</sup> rate of excavated gravel, for the supervision, monitoring and administration of all activities associated with gravel extraction in beds of rivers	\$0.70 per m <sup>3</sup>	\$0.80 per m <sup>3</sup>

Wherever gravel extraction is undertaken with a resource consent, the monitoring charge set out in Table 6 above will apply. All resource consent holders extracting gravel are required to pay the monitoring and administration charges based on the volume of gravel extracted.

Environment Southland is required to monitor rivers to determine gravel availability and the effects of gravel extractions on flood carrying capacity, on the environment and on the community and to ensure that parties taking gravel are compliant with the conditions of the resource consents. This monitoring charge is set under Section 36(1)(c) of the RMA.

**Table 7 – Discharge to Air**

Consent type	Consent Class (refer Table 16 for definitions)	Description	Administration charge	Science Research and Management charges	Compliance Monitoring Charges	Total Annual Charges for 2023/24	Total Annual Charges for 2023/24
			GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (inclusive)
<b>Discharge to Air</b>	Minor	Minor discharges to air	\$128	\$102	Actual cost	\$230 + actual monitoring costs	\$265 + actual monitoring costs
	Medium	Other discharges to air, including odour	\$235	\$102	Actual cost	\$337 + actual monitoring costs	\$388 + actual monitoring costs
	Significant	Discharges of NES contaminants to the air	\$722	\$102	Actual cost	\$824 + actual monitoring costs	\$948 + actual monitoring costs
	Major	Mining & dairy industries	\$1,455	\$102	Actual cost	\$1,557 + actual monitoring costs	\$1,791 + actual monitoring costs

\*Additional monitoring costs may apply dependent on consent conditions.

	Large	< 500 m <sup>3</sup> per day	\$358	\$1.07 per m <sup>3</sup> , minimum \$182	\$257	\$615 + science research charges*	\$707 + science research charges*
	Significant	> 500 m <sup>3</sup> per day	\$722	\$1.07 per m <sup>3</sup> , maximum \$3,285	\$257	\$979 + science research charges*	\$1,126 + science research charges*

\*Additional monitoring costs may apply dependent on consent conditions.

**Table 13 – Whitebait & Coastal**

Consent type	Consent Class (refer Table 16 for definitions)	Description	Administration charge	Science Research and Management charges	Compliance Monitoring Charges	Total Annual Charges for 2023/24	Total Annual Charges for 2023/24
			GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (inclusive)
Whitebait & Coastal	Whitebait stands	Other than Hollyford & Awarua Rivers	\$37	-	\$123	\$160	\$184
	Whitebait stands	Hollyford & Awarua Rivers	\$37	-	\$251	\$288	\$331

**Table 14 – Coastal Occupy Structure**

Consent type	Consent Class (refer Table 16 for definitions)	Description	Administration charge	Science Research and Management charges	Compliance Monitoring Charges	Total Annual Charges for 2023/24	Total Annual Charges for 2023/24
			GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (inclusive)
Coastal Occupy Structure	Coastal occupy / structure - including all areas outside of Fiordland	Includes but not limited to boatsheds, slipways, wharves, jetties, boat ramps, moorings, barges	\$128 - \$358	-	\$123	\$251 - \$481 + coastal occupation charges*	\$289 - \$553 + coastal occupation charges*
	Coastal occupy / structure - Fiordland	Includes but not limited to boatsheds, slipways, wharves, jetties, boat ramps, moorings, barges	\$128 - \$358	-	\$251	\$379 - \$609 + coastal occupation charges*	\$436 - \$700 + coastal occupation charges*

\*Additional monitoring costs may apply dependent on consent conditions.

**Table 15 – Coastal Other**

Consent type	Consent Class (refer Table 16 for definitions)	Description	Administration charge	Science Research and Management charges	Compliance Monitoring Charges (Fixed and variable costs)	Total Annual Charges for 2023/24	Total Annual Charges for 2023/24
			GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (exclusive)	GST (inclusive)
<b>Coastal Other</b>	Coastal - Other	Including but not limited to aircraft landing / take off, erosion control reclaim, disturb / remove	\$128	-	\$123	\$251 + coastal occupation charges*	\$289 + coastal occupation charges*
	Coastal - Surface water activities all areas	To carry out the operation of commercial surface water activities	\$358	\$396	\$300	\$1,054	\$1,212
	Coastal - Marine farms all areas	To occupy part of the seabed with a marine farm	\$358	\$396	\$251	\$1,005 + coastal occupation charges*	\$1,156 + coastal occupation charges*
	Coastal - Discharge to water in coastal marine all areas	Discharge to water	\$358	\$396	\$251	\$1,005 + coastal occupation charges*	\$1,156 + coastal occupation charges*
	Coastal - Discharge to water in coastal marine - significant or major type all areas	Discharge to water - treated wastewater contaminants, treated sewage	\$722 - \$1,455	\$396	Actual cost	\$1,118 - \$1,851 + coastal occupation charges + actual monitoring costs	\$1,286 - 2,129 + coastal occupation charges + actual monitoring costs

\*Additional monitoring costs may apply dependent on consent conditions.

Annual consent administration fees are classified and determined according to Tables 7-15.

The examples given in Tables 7-15 are used to illustrate the type of consented activities that *may* fall into each consent type and are in no way an exhaustive list. Each consent will be assessed based on its particular conditions and classified accordingly. For completeness, the Council maintains the ability to charge for monitoring any permits for discharges to air, land and water, land use consents, surface water and groundwater take and use consents, and whitebait and coastal consents not specifically classified in the tables based on the actual and reasonable monitoring costs.

**Table 16 – Consent classifications**

<b>Minor</b>	Granted for more than one year, require minimal administration and record-keeping.
<b>Medium</b>	Require regular record-keeping and maintenance of the consents database, possibly including the provision for the review of conditions. This category will include activities that are still minor, but require a higher level of administration.
<b>Large</b>	Require a higher level of administration and contact with the consent holder. These activities authorised may involve consents staff dealing with issues relating to that activity on a regional scale.
<b>Significant</b>	Require a high level of administration. They also involve consents staff in wider management issues associated with the activity either individually or as a group.
<b>Major</b>	Have a significant administrative requirement and necessitate a high level of contact with the consent holder. This category generally only applies to a large industry holding multiple consents.

**6. Other Fees and Charges**

**6.1 Biosecurity Act 1993**

The Council has various powers to enable it to recover the costs for investigations, enforcement, and administration under two of its biosecurity plans. Reference should be made directly to the relevant provisions of those plans, as follows:

- Southland Regional Pest Management Plan 2019-2029; and
- Fiordland Marine Regional Pathway Management Plan (2017 onwards).

Rather than fixing fees or charges for these matters under the Biosecurity Act 1993, this Schedule notes that costs can be recovered for actions taken under the Biosecurity Act 1993 and describes those charges in further detail.

In particular, Section 135 of the Biosecurity Act 1993 requires the Council to take all reasonable steps to ensure that it recovers its costs of administering the Biosecurity Act (beyond those costs that are provided for by money appropriated by Parliament for the purpose) in accordance with the principles of equity and efficiency. It provides the Council with discretion as to the methods it uses to recover its costs of administering the Biosecurity Act and performing the functions, powers and duties provided for in the Biosecurity Act (such as administering and implementing its pest management strategy or plan, or its pathway management plan), provided it believes the methods it uses are the most suitable and equitable

in the circumstances.

The methods can include fixed charges, charges fixed on an hourly or other unit basis, estimated charges followed by reconciliation, actual and reasonable charges, refundable or non-refundable deposits paid before the provision of the service, charges imposed on users of services or third parties, and cost recovery in the event of non-compliance with a legal direction (Section 128(3)).

Section 128 of the Biosecurity Act enables the Council to recover the costs and expenses it reasonably incurs when implementing an enforcement document as a debt due.

Section 129 provides that all costs recoverable under Section 128 shall be a charge (lien) against the land concerned. Costs incurred to apply and remove the lien will be added to the costs.

## 6.2 Recovery of costs from Biosecurity Activities

Council has an ongoing programme of biosecurity inspection, monitoring and response work that is undertaken for the purposes of implementing its pest management strategies and plans. (Some) cost recovery is sought for these marine biosecurity activities as provided for by Section 135 of the Biosecurity Act 1993.

**Table 17 – Biosecurity**

Activity	Description	2023/24 GST (exclusive)
<b>Biosecurity Act</b>	Cost recovery - Fiordland marine inspections, failure to produce a Clean Vessel Pass	2 hours minimum (refer Table 1 for rates)
	Cost recovery - Fiordland marine inspections, with a valid Clean Vessel Pass	Free
	Cost recovery other	Actual cost (incl staff time)
	Pest management traps, tools, herbicide, materials	Actual cost <sup>2</sup>

## 6.3 Spatial Information Data (LGA Section 150)

Environment Southland, at its discretion, may charge for access to or extraction of spatial information data. The total staff time spent will be charged at the technical officer charge rate for compiling the information as per the schedule of fees and charges in Table 1. There is no charge for the data itself.

## 6.4 River and catchment service charges (LGA Section 150)

Environment Southland will charge for the provision of information and advice relating to the following:

- flood hazard assessments;
- hazard information and advice;
- technical information and advice;
- property information;
- provision of historic information and records.

Provision of other information or services where costs, including staff time, are incurred by Environment Southland. Actual and reasonable costs will be charged for the provision of information, documents and technical advice. The first half hour of staff time involved in providing the service will not

be charged, after which the total staff time spent providing the service may be charged as well as mileage and disbursements.

**6.5 Local Government Official Information and Meetings Act 1987 (Section 13(1A))**

Environment Southland may seek to recover reasonable costs for the supply of information requested under the Local Government Official Information and Meetings Act 1987 (LGOIMA). Council reserves the right to charge for the provision of information for requests that take over an hour of time. This includes:

Photocopying in excess of 20 pages	\$0.20 per page
Other materials, e.g. information supplied on media	At cost
Standard staff time, in excess of one hour	\$38 per half hour
Specialist non-staff time	At cost
Other direct and actual costs	At cost

Fees for the creation of information, customised data requests and provision of commercially valuable information that fall outside of the scope of the LGOIMA may differ from the above. As this may vary depending on the specifics of the request, Council will advise of any charge on a case-by-case basis.

In all cases, when communicating a decision that grants information release, Council will advise the requestor of any decision to charge, the estimated amount of the charge, how the charge has been calculated, any requirement to pay in advance and advise of the right to seek a review by an Ombudsman of the estimated charge. Where a charge is payable, no action in compiling the information will occur until such time as the requestor has agreed to cover the estimated costs.

The scale of charges set out above may apply for the recovery of staff time and reasonable costs incurred with the collection and supply of information under LGOIMA. The recovery regime is based upon the Ombudsman’s guidance “The LGOIMA for local government agencies: A guide to processing requests and conducting meetings”.

## 6.6 Building Act 2004 (Section 243)

The following charges will apply to the Dam Safety and Building Control activities.

**Table 18 – Project Information Memorandum for a Dam**

Activity	Description	2023/24 GST (exclusive)	2023/24 GST (inclusive)
<b>Project Information Memo (PIM)</b>	Preliminary fixed charge payable at the time of lodging an application for a Project information memo for a Dam (PIM) for a dam.	\$1,070	\$1,231
	Fixed charge for the issue of a Resource Management Certificate under section 37 of the Building Act 2004	\$128	\$148
<b>Notice to Fix (NTF)</b>	Issue of Notice to Fix (NTF)	Actual Cost based on time and disbursements	Actual cost
	Inspection(s) of building work under NTF	Actual Cost based on time and disbursements	Actual cost
	Offence proceedings for failure to comply with NTF	Actual Cost based on time and disbursements	Actual cost
<b>Other</b>	Any other activity under the Building Act	Actual Cost based on time and disbursements	Actual cost

## 6.7 Maritime Transport Act 1994

In accordance with Section 444 of the Maritime Transport Act (MTA) regional councils exercising a delegated function or power may charge a reasonable fee in relation to the exercise of that function or power. The total hours charged for cost recovery will be at the discretion of the Regional On-Scene Commander. Staff hourly rates will be at the appropriate rate as set out in Table 1.

## 6.8 Regional Harbourmaster's Office Services and Navigation Safety

Pursuant to Section 33M of the Maritime Transport Act 1994, Environment Southland has made a bylaw in respect of navigation safety within the Southland region. Section 33R of the MTA allows Environment Southland to set fees in respect of activities that it has to undertake to implement the bylaw. The role of the Harbourmaster's Office includes managing maritime-related activities, navigation safety on all waterways. There are also some fees and charges for recreational boating activities. The applicable charges can be found in the following table.

Any other costs incurred for particular services provided that relate to navigation safety by Environment Southland which are not outlined below are fully recoverable from the person or organisation causing this cost to be incurred. This includes the costs incurred by the Council as a result of staff responding to any incident that causes or may have the potential to cause effects on navigation and safety. The response action taken by Council staff may include, but will not be limited to, monitoring, inspection, investigation, clean-up, removal, mitigation and remediation works. Actual costs for consumables, plant and equipment used/hired during a response will also be charged in addition to staff hours (as set out in Table 1) as appropriate.

For incidents occurring outside normal business hours, a minimum call-out fee of three hours at staff charge rates shall apply (includes oil spill response and emergency response).

**Table 19 – Regional Harbourmaster Office Services and Navigational Safety**

Service	Activity	Description	2023/24 GST (exclusive)	2023/24 GST (inclusive)	
Regional Harbourmaster office services and navigation safety	Permission and services of the Regional Harbourmaster's office	Specific approval from the regional harbourmaster required for hot work in certain circumstances as stated in the harbourmaster's direction on a vessel carrying liquid or gas hydrocarbons in bulk (ie a fuel, oil or gas tanker)	\$250	\$288	
		Any other exemption, permission or authorisation of the regional harbourmaster not otherwise specified; or for additional hours processing of applications for suspensions, exemptions, or reservations which take in excess of two hours (Staff time as per Table 1, per hour)	\$193	\$221	
		Charge for travel to or from any location to undertake a site visit, audit or examination	\$193	\$221	
		Charge for vessel running costs on water, per hour (excluding staff time)	\$275	\$316	
		Examination of a candidate for a Master's Pilotage Exemption Certificate, per examination	\$500	\$575	
	Suspensions, exemptions, reservations	Application to the regional harbourmaster for a suspension or exemption under Schedule 8 of the Southland Regional Council Navigation Safety Bylaw 2009 (revised 2015), per application	\$250	\$288	
		Application to the Regional harbourmaster for a reservation, regulation, prohibition, permission or authorisation under the Southland Regional Council Navigation Safety Bylaw 2009 (revised 2015), per application	\$250	\$288	
	Regional On-Scene Commander service charge	Review* or approval of an operator party to a Mobile Operators Joint Port Tier 1 Marine Oil Spill Response Plan, including initial audit	\$800	\$920	
		Review* or approval of a mobile operator's Tier 1 Marine Oil Spill Response Plan (for those in places where a joint plan is unavailable), including initial audit, per review	\$1,600	\$1,840	
		Review* or approval of an operator's small fixed site (eg jetty browser) Tier 1 Marine Oil Spill Response Plan, including initial audit, per review	\$1,600	\$1,840	
		Review* or approval of an operator to a large fixed site (eg terminal) Tier 1 Marine Oil Spill Response Plan, including initial audit, per review	\$3,200	\$3,680	
		Attendance at Tier 1 Plan site visit, exercise or audit (Staff time as per Table 1, per hour)	\$193	\$221	
		Application for an exemption, permission or authorisation of the regional on-scene commander not otherwise specified (Staff time as per Table 1, per hour)	\$193	\$221	
	* Reviews are normally conducted triennially				

## 6.9 Southland Flood Control & Drainage Management Bylaw 2020

Pursuant to Section 149 of the Local Government Act 2002, Environment Southland has made a bylaw in respect of flood protection and flood control works within the Southland region. Section 150 of the LGA allows Environment Southland to prescribe fees or charges payable for a certificate, authority, approval, permit, or consent from the Council, or an inspection by the Council in respect of a matter provided for in the Bylaw.

The applicable charges can be found in the following table.

**Table 20 – Flood protection and control**

Activity	Description	2023/24 GST (exclusive)
<b>Flood protection and control</b>	Inspections to check for compliance with the Bylaw	Actual and reasonable costs incurred by the Council
	Where a person fails to undertake the work specified in a notice issued under clause 7.5 of the Bylaw, the Council may enter upon the relevant land and carry out that work.	The costs associated with completing the work are recoverable by the Council as a debt due by the owner of the land to the Council
	Where the Council removes or alters any works, or anything constructed after the Bylaw became operative, that contravenes the Bylaw or any conditions of any authority.	Actual and reasonable costs incurred by the Council in connection with the removal or alteration

The Council may, at its discretion, refund, remit, or waive the whole or any part of any fee payable under the Bylaw.

## 6.10 Annual Coastal Occupation Charges (Regional Coastal Plan p 9.1.9)

Policy 9.1.9 of the Regional Coastal Plan sets out the regime for establishing a coastal occupation charging regime to persons who occupy Crown land, to the full or partial exclusion of others, in the coastal marine area of Southland. The Council established these charges under Section 401(A)(3) of the RMA prior to 1 July 1999.

Rule 9.1.4 of the Regional Coastal Plan sets out:

- the circumstances when the coastal occupation charge will be imposed;
- any exemptions from a charge;
- circumstances when a charge may be waived;
- the level of charge; and
- an indication of how the money received will be used

The level of the charges, as at 30 September 1998, are specified in Rule 9.1.4, and these charging rates are linked to the Consumer Price Index (CPI) for inflation. The amount of the charge will be based on the specified charges as at 30 September 1998, with any increase or decrease calculated from the change in the CPI.

**Table 21 – Annual Coastal Occupation - activity charges**

Activity	Description	2023/24 GST (exclusive)	2023/24 GST (inclusive)
<b>Commercial activities (excluding Riverton Harbour wharves)</b>	Any structure, marine farm, boat building / repair structure, boatshed or other commercial activity	\$748	\$860
	Boat storage facility on water (for more than 10 boats), including marinas, moorings, boat parks or canal housing, plus:	\$748	\$860
	- additional sum for every berth or set of pile moorings (per metre of berth per annum)	\$21	\$25
	- additional sum for every swing mooring	\$148	\$170
<b>Non-commercial activities, (excluding Riverton Harbour wharves)</b>	- Structures up to and including 14m <sup>2</sup>	\$107	\$123
	- Structures between 14m <sup>2</sup> and 28m <sup>2</sup>	\$203	\$233
	- Structures between 28m <sup>2</sup> and 56m <sup>2</sup>	\$405	\$466
	- Structures between 56m <sup>2</sup> and 84m <sup>2</sup>	\$510	\$587
	- Structures exceeding 84m <sup>2</sup>	\$748	\$860
	- Any boatshed	\$203	\$233
<b>Other Activities (commercial or non- commercial), including Riverton Harbour wharves</b>	Any pipeline used solely for individual domestic purposes (including stormwater and water supply purposes)	\$107	\$123
	Any pipeline (other than above) or submarine or buried cable	\$152	\$175
	- plus additional sum if longer than 30m <sup>3</sup> (per 30m length per annum)	\$28	\$32
	- up to a maximum sum per annum	\$748	\$860
	Any pile moorings (other than pile moorings in a boat-storage facility)	\$107	\$123
	- or per metre per annum, whichever is the higher sum	\$21	\$25
	Any swing mooring for which preferential or exclusive use is required (i.e. moorings that require a coastal permit under Rule 13.2.8, Regional Coastal Plan)	\$148	\$170
	Any wharf in Riverton harbour - per metre length per annum	\$15	\$17
